Resume

Interested in the growing world of innovations and new technologies, and with a background in Computer Science, sales and customer relations, I would like to offer my services to your company. With a Bachelor in Computer Science, I have been familiarized with a wide range of current and upcoming technologies that are shaping our world today. I have an affinity for the world of Interactive Media Development as well as the Virtual Reality and Augmented Reality industry. Having had the chance to work in customer relations in various sectors and countries, and having a solid grasp and understanding of the different cultures and personalities, I am in a position to create a more personalized approach to each potential client. I am dynamic, motivated and eager to learn new way in order to provide a constantly improving performance.
